

## Both Sides, Now by Joni Mitchell

[C] Rows and flows of [F] angel [C] hair  
And ice cream [Cmaj7] castles [F] in the [C] air and [G] feather canyon [F] everywhere  
[Dm7] I've looked at clouds that [G] way  
But [C] now they only [F] block the [C] sun, they [Cmaj7] rain and they snow on [F]  
every [C] one  
So many things I [F] would have done [Dm7] but clouds got in my [G] way

[C] I've looked at clouds from [F] both sides [C] now  
From [F] up and [C] down and [F] still [C] somehow  
It's [G] cloud [F] illusions that [C] I recall  
I [F] really don't know [C] clouds [F] at [C] all

[C] Moons and Junes and [F] ferris [C] wheels  
The dizzy [Cmaj7] dancing [F] way you [C] feel as every fairy [F] tale comes real  
[Dm7] I've looked at love that [G] way. But [C] now it's just [F] another [C] show, you  
[Cmaj7] leave 'em laughing [F] when you [C] go  
And if you care don't [F] let them know, [Dm7] don't give yourself [G] away

[C] I've looked at love from [F] both sides [C] now  
From [F] give and [C] take and [F] still [C] somehow  
it's [G] love's [F] illusion that [C] I recall  
I [F] really don't know what [C] Love's [F] about at [C] all

[C] Tears and fears and [F] feelin' [C] proud  
To say to someone I [Cmaj7] love you [F] right out [C] loud  
Dreams and schemes and [F] circus crowds [Dm7] I've looked at life that [G] way  
Now [C] old friends are [F] acting [C] strange  
They [Cmaj7] shake their hears and they [F] say I have [C] changed, yes I have  
Something's lost but [F] something's gained [Dm7] in livin' every [G] day

[C] I've looked at life from [F] both sides [C] now  
From [F] up and [C] down and [F] still [C] somehow  
it's [G] love's [F] illusions that [C] I recall  
I [F] really don't know [C] life [F] at [C] all

[C] I've looked at life from [F] both sides [C] now  
From [F] up and [C] down and [F] still [C] somehow  
it's [G] love's [F] illusions that [C] I recall  
I [F] really don't know [C] life [F] at [C] all
